

Matter 1 Hearing Statement – Stephen and Sally-Anne Walters

Matter 1 MIQ's para 8a

baseline evidence not up-to-date. The tables contain several errors.

Site 1054, a sub area of SL05 Anstey Lane site is missing from Table 1.2 as part of the strategic sites list. Site 1054 is finally listed on Table 6.1.

Also, site 580 is listed on Table 1.2 under strategic sites but this site only existed in the 2020 Strategic Sites document and is not listed on the Strategic Sites 2023 document. (see Sustainability Appraisal of the Reg.19 Leicester Local Plan September 2022)

Table 6.2 states that many sites including site 702 have been **removed** from the Local Plan.

“Reason for removal: Sites are in a Green Wedge, allotment and/or Local Wildlife Site, and have been assessed by the planning team and this SA as having, cumulatively, significant sustainability issues.”

(see Doc Ref SD/4 Sustainability Appraisal Table 6.2, Doc Ref SD/4d SA Appendix C2)

Why is it stated site 702 has been removed from the plan when in fact it is still listed?
