

## **Matter 2 Written Statement: Willoughby Waterleys Residents Association (297)**

There has been insufficient consideration of other possible Spatial Strategies for significant development within the County. This includes no consideration to the Alternative Strategy which WWRA has been highlighting for a number of years. We re-confirm, our alternative relies on less infrastructure, is better located to existing settlements (more sustainable) and protects high quality landscape in the County. Consequently it is likely to be more deliverable than the Strategic Growth Plan proposal, to the South and East of the City.

The City has made no attempt to meet its own increased housing need as a result of the 35% uplift to the 20 largest Cities.
